Easy Read

If **YES**, we need your views, to design a new adult autism social care service.

We would like to hear what is important to you.

To put in place early help to provide short term support to help you live your life as independently as possible.

The Care Act sets out how social care in England should be provided.

**prevent, reduce and delay**

people's need for care and support.

**Adult social care** covers all forms of personal and practical support for adults who need extra support to stay healthy, play a part in their community and lead as fulfilling a life as possible.
